

THE

MOON

Historic Sign

This sign is a recreation of those hung, quoting Apollo astronaut Eugene Cernan, "on every door" at NASA during the Apollo program; "That was the destination, that was the goal." Recreated as a public service by the Coalition to Save Manned Space Exploration to help set a new goal for America to go to the moon, Mars and beyond! This uses the font commonly used at NASA in the 1960's. Download the PDF at www.SaveMannedSpace.com
